

Accessibility

Your holiday destination has the benefit of an elevated position 400 feet above the sea with uninterrupted views across the English Channel.

We are available, awaiting your arrival to assist with unloading and parking. Check in arrival is level access to the ground floor of the house. First floor rooms are via a wide Victorian staircase with shallow steps. Sitting rooms, garden and dining room are all on the ground floor level.

Please discuss any mobility assistance you may require when making a booking.

We regret we do not have suitable accommodation for families with young children, we are "adult only" [over 16 years] and do not accept dogs.
